## CALL FOR POSTERS

### Introduction

The 7<sup>th</sup> Nigeria Energy Forum (NEF 2022) is a strategic training and development programme for researchers, industry experts and innovators to engage with key stakeholders in the energy sector, initiate new research collaborations, promote innovative technologies and disseminate high quality research outcomes for sustainable energy development in Nigeria and Africa. NEF 2022 offers a unique opportunity for you to showcase your research or clean energy project to the national and international energy community (please visit: [www.thenef.org](http://www.thenef.org)).

### Themes

Topics of interest include, but are not restricted to:

- Renewable Energy Technologies
- Energy Storage Systems
- Energy Access and Efficiency
- Gas & Electricity Markets
- Community Energy Systems
- Power Generation & Transmission
- Distributed Generation & Electrification
- Industry-based Clean Energy Projects
- Energy and Climate Change
- Digital Payment & Smart Metering
- Big Data & Energy Optimization

### Special Session for Innovative Clean Energy

#### Solution Developers

Case studies of interests are real projects that:

- Provide affordable clean energy solutions for commercial enterprises, agribusiness and households in urban or remote communities.
- Apply innovations in carbon capture and storage, hydrogen gas use and energy from water and waste systems.
- Demonstrate the value of affordable high-efficiency energy solutions and benefits of energy management systems.
